

Time Travellers
Year Two Homework Autumn Term 2026

Welcome to the new academic year. As always, the homework is linked to our learning this term, including our class topic, Time Travellers. The tasks do not have to be completed in order. The children may bring in each piece of homework as soon as it is complete, but no later than Wednesday to get the homework marked and the book back by Friday. **Please remind your child to work with a writing pencil and to treat the book as he or she does their workbooks at school.** Where possible, work should be glued into books as this often falls out in transit.

1. Decorate your homework book to personalize it by sticking on pictures or captions. You can draw pictures and cut them out, use pictures from magazines and posters or print pictures from your computer.
2. Choose a time in the past that you would like to visit. Find out some interesting facts about this period of history and use these to make an informative and fun poster, using pictures (either drawn or printed), labels and captions.
3. We will be learning about The Great Fire of London. Samuel Pepys lived through this period of history and buried his most prized impressions to protect them from the fire – his Parmesan cheese and his wine. Draw and label your three most cherished possessions. For a challenge, add a caption for each to explain why you would want to protect it.

4. See if you can find all of the hidden words in the Fire of London word search. (Available on the Class Page on our school website.) As an extra challenge, have a go at creating your own word search.

5. Choose a favourite traditional story. This could be one you have already read or one that you have not. Write about the story and try to encourage others to read it too.

6. Have a go at this Great Fire of London game: <http://www.fireoflondon.org.uk/game/>

7. This term we will be learning about the Coronation of Queen Elizabeth the Second. Use the template we provide to make your own crown at home. **Please stick the template onto card, such as an empty cereal box or it will not stand up correctly.** You will need an adult to help you to assemble the pieces of the crown, but you should decorate the crown yourself and cut out as much of the crown as you can. As well as the template, you will be given a list of the things you need.

8. Find out a little about your own history. Draw a simple family tree and try to find out about the life of one of your family members.
9. During Science sessions this term, we will be exploring healthy animals. Keep a food diary for a week, recording what you eat for breakfast, lunch and dinner, as well as any snacks. Aim to eat at least 5 portions of fruit and vegetables during this week in particular.

10. Use the link below to explore how to stay healthy.

<https://www.bbc.co.uk/bitesize/topics/z9yycdm/articles/zxvkd2p>

Make a poster to encourage others to stay healthy including some of the information you find.
