

Wk 1

Year 6 Arithmetic Homework

Please use the questions as a guide. The children do not need to have the questions printed out and can complete them directly in their homework books.

The questions each week will act as revision of the skills and methods the children have already worked on at school.

$0 \times 872 = \underline{\hspace{2cm}}$	$5742 + 302 + 489$ $= \underline{\hspace{2cm}}$	$12 + \square = 507$
$3600 \div 2 = \underline{\hspace{2cm}}$	$\square + 80 = 595$	$4.77 + 9.3 = \underline{\hspace{2cm}}$
$\square = 420 \div 6$	$920 \div 5 = \underline{\hspace{2cm}}$	$7548 - 3276 = \underline{\hspace{2cm}}$

Additional Challenge: Using the following digits – make the biggest and smallest number you can, then try to order 3 numbers that will fit in between the two. **3 6 7 0 1 4 2**
