4. Kian is on a minibeast hunt, counting spiders and beetles.
He says,

I have found 24 spiders and 18 beetles. I have found 42 minibeasts in total.
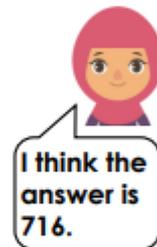

Is Kian correct? Prove it.

R

5. Ellie has completed this addition calculation.

T	O
|||||	::: :.
||	:::: ::
7	16

I think the answer is 716.

Is she correct? Explain why.

R

6. Luke has a number shown below:

T	O
||||	:::: ::

Which numbers below can be added to Luke's to give an answer between 73 and 76?

A. 24   B. 26   C. 34   D. 27

PS

Answers:

4. Kian is correct. He has added the ones and tens up correctly. There are 42 minibeasts altogether. 24 + 18 = 42. 5.

5. Ellie is incorrect. She has placed the 16 ones together in the ones column. She should have exchanged 10 ones for 1 ten and placed the ten into the tens column. The answer should be 86.

6. B because 48 + 26 = 74 and D because 48 + 27 = 75
