

Please use the questions as a guide. The children do not need to have the questions printed out and can complete them directly in their homework books.

The questions each week will act as revision of the skills and methods the children have already worked on at school.

1 Draw the sets below using the fractions given. The first one has been done for you.

A. $\frac{4}{9}$ rectangles

B. $\frac{1}{8}$ circles

C. $\frac{5}{13}$ triangles

A. 

B. 

C. 

2 Tick the options that do not correctly show the ratio or fraction as a pictorial representation.

A. 1:4

B. $\frac{2}{3}$

C. $\frac{1}{5}$

B. 3:2:1

3 Millie has a bag of 5p, 10p and 20p coins.

Millie says,

There would be fourteen 5p coins for every four 10p coins and two 20p coins.

$\frac{2}{8}$ of the coins are 10p coins.

Jaxon says,

Who is correct? Explain how you know.
