

4. Follow the rules to make equal groups. Fill in the boxes below.

A. I can make groups of 5 gems.

B. I can make groups of 2 gems.

I will have left.

5. Look at the picture below. How many would you have left if you made:

A. 8 equal groups of 2?

There would be left.

B. 5 equal groups of 5?

There would be left.

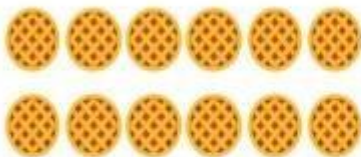

C. 3 equal groups of 10?

There would be left.

6. Mia the Cat is baking some pies for a party. She has already baked 6 equal groups of 2.

I need 28 pies. I need to bake another 7 equal groups of 2 or else I won't have enough.

Is Mia right? Draw the rest of the pies and explain why.
