

Please use the questions as a guide. The children do not need to have the questions printed out and can complete them directly in their homework books.

The questions each week will act as revision of the skills and methods the children have already worked on at school.

This week will help you use all your arithmetic skills. Don't worry too much about the time, but focus on the operations needed and the methods you use to achieve accuracy.

Please show your working for each question.

Using the Correct Order of Operations – Speed Challenge

Use the order of operations described by BODMAS to answer these questions as quickly as you can. Note down the time it takes you and add a ten second penalty for any errors!

1. $75 - 5 \times 5 =$

2. $6 + 6 \times 6 =$

3. $9 \times 9 + 9 =$

4. $45 \div (3+2) =$

5. $17 \times 2 - 9 \div 3 =$

6. $(9 \times 3) \div (5+4) =$

7. $8^2 \div 4 + 3 =$

8. $(4 + 7) \times 3 =$

9. $7 + 63 \div 9 =$
